

JOBS IN GEOGRAPHY

August 2013

Half-time Assistant Program Director for GIS

Johns Hopkins University has an immediate opening for a part-time Assistant Program Director for their Certificate and Master's degree programs in GIS. These programs were launched in the last few years and are offered fully online. We are looking for a person with a vision for the degree programs, GIS curriculum development, and ideally with both teaching and professional experience working with GIS. The GIS programs fall under the direction of the Environmental Studies Program in JHU's Advanced Academic Programs. For more information about the programs please go to <http://advanced.jhu.edu/academics/graduate-degree-programs/geographic-information-systems/> and for more information about the job, please go to https://hrnt.jhu.edu/jhujobs/job_view_faculty.cfm?view_req_id=57972&view=sch

The position will remain open until filled, but initial review of applications will begin 8/19/13.

GIS Instructor - Oregon State University, 2013-2014

OREGON STATE UNIVERSITY, CORVALLIS. The Geography Program of the College of Earth, Ocean, and Atmospheric Sciences invites applications for a 9-month position as a full-time Instructor in Geographic Information Science. We seek a dedicated Instructor who is passionate about teaching and who will complement and enhance the Geography Program's outstanding reputation for undergraduate and graduate instruction. The primary purpose of this position is to deliver nine courses per year (quarter calendar) in the area of geographic information science (GIS), including GIS programming and analysis. Courses taught include lower and upper division courses, in classroom (face-to-face) and online (e-campus) settings. The position also includes direction of student research projects and internships, serving on graduate student committees (optional), and service. Candidates must have a MA or MS in geography or a closely related field with teaching experience at the post-secondary level, and a demonstrated commitment to teaching excellence. Demonstrated expertise in Geographic Information Systems (GIS) programming is required. The successful applicant must be committed to educational equity in a multicultural setting and must show a commitment to advancing the participation of diverse groups and supporting diverse perspectives. A PhD in geography or a closely related discipline and experience in advising and course development is highly preferred. OSU is an AA/EOE and the College of Earth, Ocean, and Atmospheric Sciences is committed to promoting diverse perspectives and approaches to research and education. Applications from members of historically underrepresented groups are strongly encouraged. The anticipated start date is September 16, 2013. Salary is competitive, and benefits package includes several options for health/dental/life insurance, retirement, as well as a new program of reduced tuition for dependents (some restrictions apply). To apply submit materials by August 1, 2013 to jobs.oregonstate.edu and search for Posting #: 0011118. For further information contact Dr. Julia Jones, Search Chair, CEOAS, Oregon State University, Corvallis, OR 97331-5506, Phone: (541) 737-1224, jonesj@geo.oregonstate.edu.
