Department of Biology Policy on Regression and Duplication

- Taking BIOL:1140 Human Biology: Nonmajors or BIOL:1141 Human Biology: Health Professions after BIOL:1411 Foundations of Biology and BIOL:1412 Diversity of Form and Function is considered regression, and students will then not receive credit for BIOL:1140 or BIOL:1141 toward graduation.
- Students will receive credit toward graduation for only one of these courses because of similar content: BIOL:1140 Human Biology: Nonmajors or BIOL:1141 Human Biology: Health Professions. Students are allowed to use SGO (Second-Grade-Only) option between BIOL:1140 and BIOL:1141.

Effective Fall 2021
