Submit an original creative nonfiction essay reflecting on some aspect of an international issue which you learned about through your International Studies B.A. coursework and from your experiential learning activity.

Minimum length is 5 pages (double-spaced).

Attach this form to your essay and submit it to the International Studies Program after the completion of your second required writing course but before the last day of classes during the semester in which you graduate.

You will receive an email from the International Studies Program which either approves the essay for the IS degree requirement, or which requires you to make changes in order to resubmit the essay.
