ICFRC Lecture Luncheon

“Right Friends, Wrong Enemies”
Mujib Mehrdad
Wednesday, October 15, 2014, 12:00-1:15 pm
Congregational Church – 20 N. Clinton St.
Register here, or contact (319) 335-0351 or ICFRC@uiowa.edu

The draw-down of U.S. forces in Afghanistan has been accompanied by a pervasive mood of cynicism in relation to America's Middle East foreign policy. Beyond the mire of the perilous Afghani political situation is a hopeful picture of positive social change. As Mujib Mehrdad argues, U.S. involvement in Afghanistan has produced a predominately positive impact on society, including changes in public education and women's rights. Despite these developments, however, difficult work lays ahead as foreign intervention winds down.

Mujib Mehrdad is the author of poetry collections including Gladiators Are Still Dying (a 2007 Afghan Civil Society literature award winner), and The Fishes Have Fled Our Veins (2008). He has translated Irwin Allen Ginsberg, Sylvia Plath, Langston Hughes, and others, into Dari. He is a board member of the literary organization Kashane Nawesendagan [House of Authors] and teaches Persian literature at Albironi University in Kapisa. His participation is made possible by the Bureau of Educational and Cultural Affairs at the U.S. Department of State.
The American Indian & Native Studies Program, Department of Anthropology, Latin American Studies Program/International Programs, & College of Education’s Committee on Diversity are pleased to present:

**Meeting the Renewable Energy Challenge Symposium**

Main Lounge, Iowa Memorial Union
Wednesday, October 15th, 2014 12:00 PM to Thursday, October 16th, 2014 9:00 PM

This symposium takes a broad look at the scientific challenges and policy issues surrounding renewable energy, with special reference to Iowa and the Midwest. Should the government support a shift from nonrenewable to renewable sources of energy? Will shifting toward renewables decrease the pace of climate change or make us more energy secure? What are the technical barriers to rapidly increasing our reliance on renewable energy? What policy changes are necessary or desirable in order to promote renewable energy growth? Topics covered will include infrastructure development (e.g. wind farms; transmission lines), biofuels, emerging environmental problems, and distributed energy policy.

The main event will kick off with a Student Energy Expo (October 15), with opportunities for students to learn and share information about their own research related to renewable energy and related topics, followed by a renewable energy debate (October 15).

**Of particular interest:**

This presentation examines how contemporary television program flows and genres have been influenced by pre-Colombian, Colonial era, and post-colonial cultural and political geography. It explores the impact of Iberian and colonial traditions, such as corporatism and patterns of cultural hybridity, as well as newer practices such as populism. All of these forces shaped Latin American television systems across borders in their relationships to the state, in their industrial forms, and in their content. These regional forces will be contrasted to US and global forces.

"The Hale Lecture honors the memory of Professor Charles A. Hale (1930-2008), a specialist in Latin American liberalism and intellectual history. He was a distinguished scholar and faculty member at The University of Iowa from 1966 to 1997."

This event is sponsored by the Latin American Studies Program in UI international programs. Can Beauty Save the World?

Geneva Lecture: Rediscovering the Redemptive Power of Beauty
Friday, October 24, 7:30—9:00 PM
101 BCSB  Becker Communication Studies Building at the University of Iowa

In his novel *The Idiot*, Dostoyevsky penned the words, “Beauty will save the world.” But in the arts and contemporary culture in general, many people are suspicious of “beauty” as a denial of the harsh realities of life. How can we experience and share the saving power of beauty? How do creative works do their “work” to help us in this vital task? Dr. Cecilia González-Andrieu will share her insights and passion. This lecture is free and open to the public.

Show & Tell: An Encounter with Art and Theology
Saturday, October 25, 10:30—11:45 AM
109 EPB  English-Philosophy Building at the University of Iowa

Local artists will share examples of their painting, sculpture, photography, music, writing, and other art forms. Dr. González-Andrieu will engage them and the audience in conversation about the life-affirming role of beauty and wonder in their creative work.

Dr. Cecilia González-Andrieu is an Associate Professor of Theological Studies at Loyola Marymount University in Los Angeles. Her teaching, scholarship and community commitments center around Latino/a theology and the intersection of theology and the arts. America magazine named her as one of the seven most promising theologians of the next generation, and she has been recognized by the Hispanic Theological Initiative for her work on behalf of the Latino community. In her recent book, *Bridge to Wonder: Art as a Gospel of Beauty*, Gonzalez-Andrieu explores the revelatory and prophetic power of artistic beauty that can affect individuals and form communities.

WFAN Conference – November 14-15 in Fairfield, IA

The 2014 Women’s Food and Agriculture Network annual conference will take place November 14-15, 2014, at the Arts and Convention Center in Fairfield, IA. The theme of the conference is *Women Doing Democracy: Building Grassroots Coalitions to Grow Healthy Food and Farming in Your Community*.

Join us for two days of learning, networking, and eating delicious local foods with other women engaged in healthy food and farming! Choose from field tours, on-site intensives, a screening of the female farmer veteran documentary film *Terra Firma* (including a discussion led by the film's producers and one of its featured farmers) and much more.

**Keynote Speakers:**

The 14th Annual Iowa Organic Conference will be held Nov. 16-17 on the University of Iowa campus in Iowa City, as a joint effort between Iowa State University and the UI Office of Sustainability. Producers and experts from across the country will share tips for transitioning into organic production and methods to enhance organic operations.

The conference keynote speaker is Mary Berry, daughter of Wendell Berry, novelist, poet, environmental activist, cultural critic, and farmer. Ms. Berry speaks all over the country as a proponent of agriculture of the middle, in defense of small farmers, and in the hope of restoring a culture that has been lost in rural America. Her works promoting soil conservation and an ecological agriculture are echoed in one of her sayings: “A society that is satisfied with short term economics while destroying the source of its own survival [the soil] cannot last.”

Call for Papers: The Arab Spring in a Global Context

Undergraduate students, graduate students, professional, experts, and scholars are invited to submit abstracts for the upcoming Provost’s Global Forum at the University of Iowa, “The Arab Spring in a Global Context,” to be held in Iowa City, Iowa, April 30 to May 1, 2015.

Activities will include presentations of research papers and reports, roundtable conversations, panel discussions, musical performances, book exhibits, film and documentary screenings, and more.

Financial support is available to subsidize travel cost for qualified presenters who submit paper abstracts before October 15, 2014. Otherwise, the deadline for submitting paper abstracts is November 30. Competitive prizes will be awarded to exceptional undergraduate and graduate student papers.
