Written Assignment:
Write a three- to five-page report, typed double-spaced, and include the following:

1. List at least five goals that you want to achieve by the end of your internship.
   - Write the goals so that they are specific and measurable.

   - The goals should relate to your development of competency as a recreational therapist.

2. Compare and contrast the nature and scope of the agency with the standards of your profession and with your internship goals. This part of the assignment is to include:
   - A description of the purpose and goals of the agency where you are interning.
   - The population that is served by the agency and the services provided to the population.
   - A description of the organizational structure of the agency, the funding sources, and the agency’s role in the community.
   - A description of how the scope and nature of the agency complements and/or contrasts with: 1) the standards of your profession and 2) your own internship goals.

3. Describe the major project you will complete during your internship.
   - Describe the purpose of the project.
   - Relate how you and your agency supervisor determined the project.
   - Outline how you intend to: 1) assess the needs related to the project; 2) plan (design) the project, 3) implement the project, and 4) how you will evaluate the effectiveness of the project.
   - Provide a timetable or time line for each of the four phases of the project (assessment, planning, implementation, and evaluation).

- Pretend that you were suddenly placed in charge of your Agency. How would you use your unique personality, talents, and education to serve your staff and clients?
- Describe how your “academic” vision of therapeutic recreation compares to its practical application in an internship setting.
