

SECTION V – Plan of Study

You should provide your academic advisor with a least one-week to review this form. List all coursework for which you are **currently registered**, starting with the appropriate box (i.e., Fall, Spring or Summer). Then, list all coursework for which you **plan to register in the future** in order to meet degree requirements. It is understood that some classes may vary based on availability. For each term, indicate the year and total semester hours. For each course, indicate course number, abbreviated course title and semester hour credit. If you are using the second-grade-option, check that column. In the final column, indicate if the course is needed to fulfill a major, minor, elective, or certification requirement for the degree. **To qualify for federal financial aid, you must enroll in at least 6 hours (3 hours in the summer) of coursework required for the degree or certification each semester.**
