Addressing Gender and Sexuality with Individuals and Couples in Psychotherapy

October 21, 2016
8 am-5 pm
St. Francis Center
Briar Cliff University
3303 Rebecca St.
Sioux City, IA
LEARNING OBJECTIVES

• Understand gender and sexuality issues that can impact therapy.
• Assess and navigate the clinical process with clients in regard to sexual issues.
• Understand how our own levels of dis/comfort affect our work around issues related to gender and sexuality.

This all-day training will address gender and sexuality issues and how they affect our clinical work with the individuals and couples we see. Topics will include: gender identity, sexual orientation, sexual dysfunction, alternative sexualities, polyamory/non-monogamy.

The training will focus on:
• A working knowledge of these topics
• How to talk about these things in therapy
• Identifying the barriers that may hinder your work with clients (trauma, substance use/abuse, situational factors)
• Tools you can use to help individuals & couples navigate and negotiate potential differences and difficulties

WORKSHOP PRESENTER

LAURA GRIMES, LCSW

I am a Licensed Clinical Social Worker. I received my BS in psychology from Illinois State and my MSW from Loyola University in Chicago, where I am an Adjunct Faculty in the MSW program. I work with individuals, couples, and families (whether by blood or chosen).

I have over 15 years of experience in community mental health, working with individuals who were diagnosed with severe and persistent mental illnesses such as schizophrenia and bipolar disorder.

I trained as a sex therapist with Dr. Domeena Renshaw and provide sex therapy related to sexual intimacy problems, low sex drive, or differing sex drives in relationships, BDSM/kink, polyamorous or non-monogamous relationships, sexual issues related to chronic illnesses such as cancer, stroke, HIV/AIDS & depression.

As a consultant and trainer, I am passionate about educating mental health professionals and medical providers to be culturally competent, specifically as it relates to gender & sexuality issues, so that no person feels that they have to educate their provider in order to receive competent services.
