187:198 HONORS THESIS IN INTERNATIONAL STUDIES

For students who declared the International Studies B.A. prior to fall 2007 and plan to graduate with honors in International Studies:

- You may choose to complete either 187:199 International Studies Senior Project or 187:198 Honors Thesis in International Studies.
- The primary differences are the minimum length requirement and the required poster session for the Honors Thesis.
- Those choosing to complete 187:199 International Studies Senior Project will use their Senior Project as their Honors Thesis, will deposit their Senior Project with the Honors Program and will be subject to any and all Honors Program deadlines.
- Those choosing to complete 187:199 International Studies Senior Project may choose to participate in an International Studies Honors Poster Session.
- Please note that faculty mentors MUST be informed prior to registration if a student is using 187:199 International Studies Senior Project as an Honors Thesis, and under those circumstances faculty mentors may impose more rigorous requirements than the minimum requirements noted in the Senior Project packet.
