The Pine Rest Clinic in Pella Iowa is searching for a full-time licensed LISW, LMSW, LMHC Ph.D, or Psy.D to work in outpatient setting. Clinicians who have finished their degree and need supervision to obtain full licensure are also encouraged to apply. The Clinician will be responsible for evaluating bio-psycho-social needs of clients, establishing treatment goals, and implementing appropriate therapeutic interventions based upon clinical knowledge base and educational background (to include individual, group, and family modalities). The Clinician will also complete resource and discharge planning for clients and collaborate with other treatment team members regarding client's progress through interdisciplinary team meetings, record review, and informal discussions. Additionally, the Clinician will ensure client's progress notes are entered into the electronic medical record in a timely fashion and in accordance with established organizational and departmental procedures and will have opportunity to provide substance abuse assessment and treatment in addition to mental health assessment and treatment. Pine Rest’s Pella Clinic is a NHSC Loan Repayment Eligible site.

Established in Grand Rapids Michigan in 1910, Pine Rest is one of the five largest freestanding psychiatric facilities in the country. The Pella Clinic has provided outpatient therapy services for over 35 years and currently employees 11 clinicians and a psychiatrist. Pine Rest is JCAHO certified with an overall staff including over 35 psychiatrists and doctors, more than 35 fully licensed doctoral level psychologists, over 145 LISW's and LMHC's, 15 physician assistants and nurse practitioners, plus 10 chaplains. Pine Rest holds a conviction to express Christ's love and compassion to recipients of services, coworkers, and surrounding communities through integrity, stewardship, empowerment, the promotion of diversity, and professional excellence.

Ideal qualified candidate has the following:

- Ability to obtain Iowa license as LISW, LMSW, LMHC, PhD, or Psy.D
- Completed degree program and will be eligible Iowa licensure after completing supervision hours
- License as CADC, IADC, or IAADC is preferred but not required
- Networking skills
- Computer and documentation skills allowing individual to manage an electronic medical record
- Excellent generalist clinical skills and interpersonal relationship skills
- Ability to work within a performance based system
