Job Openings for Functional Family Therapy (FFT) at Orchard Place Child Guidance Center in Des Moines, IA

What is Functional Family Therapy?

Functional Family Therapy is an evidence-based family intervention program for at-risk youth, ages 11 to 18, and their families. Master's level therapists meet with families to help improve relationships, communication, parenting, conflict within the home all while reducing behavioral problems. Developed in 1972 and backed by more than four decades of research, the model has proven effective at reducing a variety of issues, including: acting out behaviors, delinquency and substance use.

- Non-judgmental
- Strength-based
- Matches to the family
- Short term and intensive

We currently have three FFT positions open and are looking for Master's level candidates to apply (LMSW, MHC-TL, MFT-TL, LISW, LMHC or LMFT).

FFT provides a solid foundation for building your career. You would be trained in a highly evidence based model that allows a balance of structure and creativity when working with families. You build connections with therapists and court officers that you can continue to build on throughout your career. It's also a nice balance of micro and macro level work where you are able to get the direct clinical experience with individuals and families while also working on the systematic level with the community and court. FFT allows you to be flexible in your schedule to find a balance that works well for you and the families you work with. Lastly, the team environment is extremely supportive to help your continued growth as a clinician.

FFT positions are open for Polk County, Marion and Warren County, and our Southern Counties (Clarke, Union, Adams, Adair, and Lucas).
