What are the primary criteria for selection?
1. Extensive record of campus and community service;
2. Commitment to a career in government or the nonprofit and advocacy sectors;
3. Communication skills and a high probability of becoming a "change agent"; and
4. Strong academic record with likely acceptance to the graduate school of the candidate's choice.

Very few candidates are strong in all areas. Each year we select a number of Scholars who have gaps in their application. In general, the record of campus and community service and the commitment to a career in public service are the most important criteria. We do not select Finalists who have significant gaps in these areas.
