Are you ready to make a difference and impact the lives of our vulnerable, aging adults and their families in rural communities?

Become part of a strategic team with a foundation of support from an innovative, national and rapidly-growing private company, Senior Life Solutions, a national program managed by Psychiatric Medical Care. In 2018, our outpatient, intensive group therapy programs will impact more than 4,875 senior adults in our 70 programs within 20 states.

We have results—from satisfied patients, referring hospitals, physicians, and community members about the positive outcomes from our unique programs. Our model provides intensive outpatient group therapy in rural hospitals. Our patients are older adults typically over the age of 65 who struggle with symptoms of depression and anxiety often related to aging. With our program, our patients enjoy other benefits as well—including socialization. Our resulting growth to date this year, 18 new programs in 2018, demonstrates that our model is working and changing lives of our rural seniors and their family and community members.

We are seeking special therapists, licensed LISWs, LMSWs, LMHCs and LMFTs who are passionate about providing excellent patient care. Join us and help us change the way behavioral health is accepted, promoted, and delivered in rural communities. In Iowa, our fulltime therapist openings are currently in Corning, Iowa. Part-time, PRN roles are also available throughout the state.

We offer future career growth for our team members among other very generous benefits:

- Competitive compensation/pay rates
- Accrue up to 24 days of paid time off (PTO) each year
- Health, Dental and Vision insurance
  - Extremely competitive medical insurance rates/deductibles for employee only and family coverages
  - FREE dental and vision insurance for employee only coverage
- Health Savings Account (HSA) with generous company contributions
- Flexible Spending Accounts (FSA)
- Company-paid Life Insurance
- Company-paid Short-term Disability (STD)

ABOUT SENIOR LIFE SOLUTIONS, a part of PSYCHIATRIC MEDICAL CARE
Founded in 2003, Psychiatric Medical Care (PMC) operates inpatient and outpatient programs located in rural communities across the country. Founder and Chief Medical Officer, James A. Greene, M.D., a geriatric psychiatrist, was born and raised in a rural community, which today hosts a rural hospital. He developed PMC with the sole mission to improve the quality of life of older adults living in rural communities. PMC, which operates the Senior Life Solutions outpatient program and Green Oak Behavioral Health inpatient facilities, is one of the largest geriatric mental health management companies within rural hospitals across the United States.
